JOYFUL
@ by Paraller

Tired but can't sleep after a busy day?

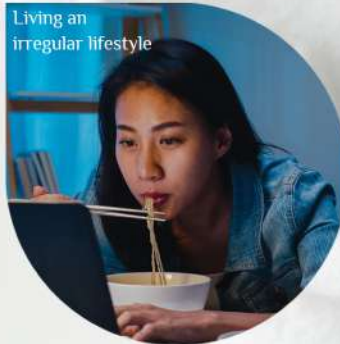

Bitten by mosquitoes, irritating itchiness, inflamed and swollen

Surfing the internet, cannot fall asleep at night

Suffering from work pressure and negative emotions

Living an irregular lifestyle

Long-term insomnia seriously affects normal life

Skin turns unhealthy, aging process accelerating

Memory loss, having difficulties to concentrate

Immunity weaken, poor health condition

Low productivity at work, hard to get promotion

Mosquito bites may cause big problems

Inflamed, swollen, redness, pain, and unbearable itchiness

Spread the virus and disease

Restless and unable to sleep

Endless crying and screaming, seriously disturbing everyone in the family

Keep mosquitoes away
Stress-relieving, soothing
and falling asleep faster.

Warmly recommend to you
JOYFUL GOODNIGHT BUGS AWAY MIST

The safe German patented insect repellent formula, namely IR3535®, is derived from a natural derivative of β -alanin. It can build an invisible shield for up to 8 hours, effectively protecting you and your family from mosquitoes. The key to protection is to keep the skin soft and healthy while driving away “uninvited” guests.

JOYFUL GOODNIGHT BUGS AWAY MIST combines a variety of natural plant essential oil compounds to create a mosquito-free and calming atmosphere with ease. You will be able to enjoy undisturbed sleep all night long.

Five advantages

The German patented IR3535® is a broad-spectrum insect repellent. Effectively repels mosquitoes, ants, cockroach, flies, ticks, lice, wasps, bees, etc.

It provides up to 8 hours of protection from mosquitoes and insect. The German patented insect repellent formula has been successfully applied in insect repellants for over 30 years.

Gentle formula for safe use. It contains no DEET, no chemical pigments, no heavy metals, no Icaridin, no methanol, and no fragrance

Sustainable. Close to nature. Does not accumulate in the environment. Cares for you and your surroundings.
